PARSER FLAGS

■ Suspected 19-day coverage lapse

All current policies effective 04/03/2026 with a new carrier (Employers Mutual Casualty). Prior policies with previous carrier would typically have expired ~03/15/2026 on an annual cycle. Implied gap: 03/15/2026 – 04/03/2026 (19 days). Vendor may have been working on-site without coverage during this window. Request prior policy expiration dates to confirm.

REVIEWER NOTES Current coverage is fully compliant. Investigation needed to determine whether a lapse occurred. New carrier and policy numbers suggest a carrier switch rather than simple renewal.

Umbrella	— NOT ON FILE —	—	—	—	— MISSING	No
Workers Comp	— NOT ON FILE —	—	—	—	— N/A (no employees)	No

PARSER FLAGS**X Sole proprietor — no LLC**

Vendor operates as an individual. W9 filed under SSN, not EIN. No corporate liability protection. Higher personal liability exposure for StoreSafe in the event of a claim.

■ GL limits below preferred threshold

Each Occurrence \$1M (preferred \$2M+). General Aggregate \$2M (preferred \$4M+). Technically meets minimum but below standard for the portfolio.

X Umbrella missing

No umbrella/excess liability policy in force. Combined with lower primary limits, total coverage exposure is significantly below preferred standard.

■ WC absent

No employees, so WC is not required. However, if vendor ever subcontracts work, WC requirement must be revisited immediately.

■ Personal email and bank account

All contact and payment information is personal (Gmail, personal bank account). No business identity separation.

**REVIEWER
NOTES**

Vendor may be acceptable for very minor incidental work only. Recommend requiring vendor to incorporate and obtain umbrella coverage before performing any significant work at properties.
